Description Technical parameter Review

PDFmyURL converts web pages and even full websites to PDF easily and quickly.

The WAI-7000 is the most popular area-imaging scanner engineered to decode all standard 1D, PDF and 2D barcodes. The scanner's sleek and elegant design also blends seamlessly in retail environments, providing superior-performance scanning of all printed barcodes, and digital barcodes on any smart device.

Highlights

♦ Laser-free Aiming

Laser-free aiming provides an accurate scan indication, creating a customer-friendly operating environment while removing the risk of eye injury.

♦ Interface Flexibility

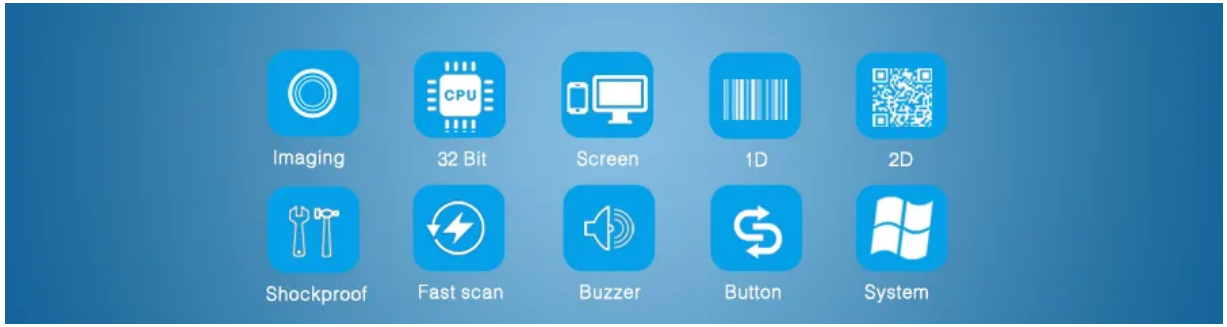

Choose USB HID KEYBOARD, USB VCP or RS-232 connectivity.

♦ Easily Scans Barcodes on Screens

Scanning paper barcode with high speed;Easily scans barcodes directly from mobile device or computer screens, almost as if they were printed on paper.

♦ Durable

The WAI-7000 can withstand up to drop to concrete from distances as high as 1.2m (4 ft).
